

PCS Desktop Support

Full Support. Worry-Free. That's PCS

Your IT hardware is one of your biggest business investments, so it makes sense to ensure your technology is maintained and managed to the highest standards. Take advantage of our Desktop Support offering within PCS Critical Care and leave your worries behind.

Desktop Support—Level 1

- ◆ **Remote Tech Support**
8x5 remote support to resolve problems working with the end user by providing step by step instructions or remote control of the computer to remedy the problem. Modify configurations, utilities, software default settings, etc. for the local workstation. Troubleshoot configurations on workstations including internet connectivity and email support on desktops.
- ◆ **Remote Device Monitoring**
Monitor laptops and desktop computers and report on performance and potential problems such as low memory or high CPU utilization.
- ◆ **Microsoft OS Patching**
Application patch deployment to production computers for current Microsoft Operating Systems.
- ◆ **Antivirus Protection**
Protection against viruses, worms and Trojans, spyware, adware, hidden threats and malicious websites and Firewall protection.

Desktop Support—Level 2

Includes all components of Level 1 support PLUS...

- ◆ **RecoverCloud desktop data backup ***
Our all-in-one backup solution requires that no third-party software. RecoverCloud has a cloud-based central management system and has an intuitive and simple web interface.

** Cloud backup of user data with flexible scheduling and retention policy. Windows and Apple devices only with a 500G limit per site.*

Hardware coverage is based on manufacturer's warranty.
