

Staff Augmentation

We're not a staffing company, We're an **IT solutions** company.

Let PCS be your full service IT solutions provider. Our extensive experience with technical staffing means we've refined the process of supplying the right resources at the right price for every project.

PCS MISSION: To partner with our clients to build a custom staffing solution around your hiring needs today and in the future. To provide accomplished, quality resources in a timely manner and achieve the "trusted advisor" status.

The Answer is **PCS**

With 28 years of industry experience, PCS offers much more than a typical staffing agency can.

PCS Specializes in Providing:

- ◆ System Administrators and Architects
- ◆ Project Managers
- ◆ Help Desk and Desktop Support Specialists
- ◆ Migration Experts
- ◆ Application Development
- ◆ Full Life Cycle Development (BA, Developers, QA, Testers)
- ◆ Infrastructure Professionals
- ◆ Security Administration
- ◆ SOC Resources (Security Operations Center)

From **contract, contract to perm** or **direct hire**, if you have a need for staffing, **PCS can help.**

Pre-Screened Professionals

PCS has onsite, certified technical staff for pre-screening our candidates on their technical abilities.

Resource Management

PCS has a large network of personal resources that enables us to reach the "passive candidate". In addition, with regular check points to ensure expectations are being met, our Resource Manager is dedicated to delivering successful staffing solutions.

Industry Experience

Decades of experience in the in the Staffing industry market, specializing in IT and Engineering. Supporting clients from small businesses to global corporations.

Situation Escalation

Our onsite employees have the support of the entire PCS team at all times. When issues do arise, this full staff of engineers and technicians can be called upon quickly.

Partnered with the Best

A full service technology solutions provider, PCS maintains partnerships and certifications with the premier innovators and providers of IT products, including Dell EMC, Cisco, VMWare, VCE, HP, Microsoft and more.

CONFIDENCE IN OUR PEOPLE

By turning to PCS for your staff augmentation needs, you can avoid the potential risks that come with employee turnover and hiring. Using **E-Verify**, we run full background checks on every member of our team, and our rigorous training and testing procedures ensure that each person we send out is capable and reliable.

RECENT PCS PLACEMENT EXAMPLES

- **24x7 shift coverage** to guarantee uptime for an international re-insurance company.
- Short-term engagement to manage a **1,600 seat** multi-site workstation refresh initiative.
- Long-term **onsite maintenance and support** for a small business' servers and network.

WHY

Lower overhead, including unemployment insurance, healthcare and payroll tax

Keep labor costs predictable while maintaining flexibility

Match the skill set of workers to the specific task at hand

Free up current staff to focus on planning, strategy, and development

WHEN

Coverage for long term absences or unexpected terminations

Temporarily boost your staff for the duration of large projects

Instantly add expertise for new technology

Temporary relief during restructuring periods

“

My experience with PCS has been of the highest caliber. They are extremely knowledgeable and care enough to help me get exactly what we need when we need it...

They deliver employees that are better than we expect and continue to make our organization better. IT Talent is definitely their forte and we will continue to use their skills and resources in the future.

PCS knows our culture, IT environment, and can find the right fit for personality and IT strengths regardless of our challenges. Kudos to PCS for the work they does for me. PCS provides premier support in the recruiting arena.”

”
